

Pakistan's Energy Transition

About SDPI

SDPI was founded in August 1992 on the recommendation of the Pakistan National Conservation Strategy (NCS), also called Pakistan's Agenda 21. The NCS placed Pakistan's socio-economic development within the context of a national environmental plan. This highly acclaimed document, approved by the Federal Cabinet in March 1992, outlined the need for an independent non-profit organization to serve as a source of expertise for policy analysis and development, policy intervention, and policy and program advisory services. SDPI is registered under the Societies Registration Act, XXI of 1860.

Mission

To catalyse the transition towards sustainable development, defined as the enhancement of peace, social justice and well-being, within and across generations.

Vision

To be a center of excellence on sustainable development policy research, capacity development and advocacy in Pakistan.

About Newsletter

To keep abreast of emerging issues at the national/international and local level, the SDPI brings out a Bi-Monthly E-Newsletter on
“Pakistan's Energy Transition”

It carries reference information's to the news items/comments/Op-Eds appearing in leading National/International daily newspapers.

Newspapers Covered:

• Dawn	• The News	• The Express Tribune
• The Nation	• Business Recorder	• Daily Times
• Pakistan Observer	• Pakistan Today	• Urdu Point
• China Daily		

Editor Note:

Clean energy transition is the only answer and solution to secure the sustainable future of Pakistan. There is a dire need to address the use of clean energy timely as it is not only the safest, reliable, and efficient means of energy production but will also harness the abundant indigenous energy resource available in Pakistan. Pakistan's recent policies and initiatives have strongly advocated the need for Pakistan to transition towards clean energy resources. With ARE policy aiming to achieve 30% power through hydro and 30% share of renewables in the energy mix, Electric Vehicles (EVs) policy targeting to achieve 30% share of EVs by 2030, Paris Agreement goals, and the recent moratorium of coal by Prime Minister in Climate Summit, Pakistan is taking a leap towards a green energy future.

However, the development of clean energy transition in Pakistan cannot be achieved without political leadership and need of research-based scientific evidence to help transform the conventional policy making process in Pakistan.

In this regard, Sustainable Development Policy Institute (SDPI) runs a "Clean Energy Transition Program", under which "Network for Clean Energy Transition in Pakistan: Research and Advocacy", along with the "Renewable Energy Parliamentary Caucus" have been launched and established to mobilise policies into implementation with clear goals and targets. Our work is focused on (but not limited to) building momentum by exploring the missing gaps and links for achieving Sustainable Development Goal 7 (SDG7) through a holistic approach, especially to explore ways for post-COVID green economic recovery; aligning the wider sustainability agenda with SDG7, sectoral policy reforms, renewable energy investment streams, green financing, private sector engagements, and other windows of opportunities for achieving the goal of clean energy transition in Pakistan.

Subjects Covered

- Energy and power
- Renewable energy
- Sustainability
- Energy investment, innovation, automation
- Oil and gas sector
- Transport
- Industry
- CEPC Energy projects
- Energy finance and economics

Harpo Hydropower fast-tracked for G-B

Source: [Our Correspondent](#), [The Express Tribune, Islamabad](#), 2025-05-10

ISLAMABAD: A meeting of the High-Level Committee on the Harpo Hydropower Project (HPP) was convened today at the Ministry of Water Resources under the chairmanship of Federal Minister for Water Resources Mian Muhammad Mueen Wattoo. The Minister highlighted the strategic and developmental significance of the Harpo Hydropower Project for Gilgit-Baltistan and emphasised the need for its swift and e..... [more >>](#)

387 illegal gas connections severed

Source: [Our Correspondent](#), [The News, International](#), 2025-05-05

LAHORE: Continuing what it called its rigorous crackdown against gas theft, Sui Northern Gas Pipelines Limited (SNGPL) has cut 387 illegal connections across Punjab, Khyber Pakhtunkhwa, and Islamabad. The company has also imposed fines amounting to Rs4.2 million on gas pilferers. In Lahore, the regional team disconnected 124 connections due to illegal gas usage and two more for compressor usage, i..... [more >>](#)

Crackdown on electricity thieves

Source: [Press Release](#), [The News, International](#), 2025-05-06

Islamabad: As part of the ongoing crackdown on electricity theft, Iesco has carried out effective operations across the region, imposing fines on electricity thieves and leading to dozens of police cases being registered, says a press release. Under the directives of IESCO Chief Executive Muhammad Naeem Jan, Iesco's operational teams are conducting surprise meter inspections in various areas..... [more >>](#)

DC fast charging network; BYD Pakistan enters partnership with HGL

Source: [Recorder Report](#), [Business Recorder, Islamabad](#), 2025-05-03

KARACHI: BYD Pakistan - Mega Motor Company (BYD|MMC) has partnered with HUBCO Green (Private) Limited (HGL) to launch the country's largest DC fast-charging network for new energy vehicles (NEVs). This nation-wide rollout of infrastructure marks one of the most significant developments in the country's shift towards electric mobility by addressing a critical gap in Pakistan'..... [more >>](#)

Textile industry demands cheaper power

Source: [Mubarak Zeb Khan](#), [Dawn, Islamabad](#), 2025-05-13

ISLAMABAD: The Pakistan Textile Exporters Association (PTEA) has urged the government to rectify anomalies in the industrial electricity tariff, which will penalise large industries investing in high-voltage infrastructure. The demand came from the association when the country's textile exports have slowed down in the past few months owing to structural changes and the h..... [more >>](#)

Petrol, diesel prices cut by Rs2 per litre each

Source: [News Desk](#), [The News, International](#), 2025-05-01

ISLAMABAD: The federal government has reduced the prices of petrol and high-speed diesel (HSD) by Rs2 per litre each for the upcoming fortnight, according to a notification issued on Tuesday, amid subdued trends in international oil markets. The revised rates, based on recommendations from the Oil and Gas Regulatory Authority (Ogra) and relevant ministries, will come into effect from May 1, 2025..... [more >>](#)

Pesco unveils plan to overcome summer power challenges

KARACHI: K-Electric (KE) has been awarded top honours at the Effie Awards Pakistan 2025, securing the prestigious Grand Prix for Campaign of the Year along with a Gold Effie in the Small Budget category for its energy conservation campaign 'Farq Parta Hai'. The campaign successfully enabled more than 510,000 customers to pay their bills on time. The campaign also helped conve..... [more >>](#)

PM orders power reforms to slash costs, save Rs4.743tr

Source: [Israr Khan & Khalid Mustafa](#), [The News, International](#), 2025-05-02

ISLAMABAD: Prime Minister Shehbaz Sharif on Thursday approved the revised 10-year Integrated Generation Capacity Expansion Plan (IGCEP) 2024–2034 and directed its swift implementation, aiming to save Rs4.743 trillion through sweeping reforms in the country's power sector. The plan, aimed at reducing electricity costs and ensuring long-term sustainability, is projected to save the nati..... [more >>](#)

Govt scraps costly power projects

Source: [Khaleeq Kiani, Dawn, Islamabad](#), 2025-05-02

ISLAMABAD: The government on Thursday announced the exclusion of about 7,960 megawatts of proposed power projects and the rescheduling of 7,000MW of previously committed plants from the revised 10-year Integrated Generation Capacity Expansion Plan (IGCEP) 2025-34, projecting total savings of Rs4.743 trillion (\$17 billion) over their operational lifespan. Based on a review of existing project pi..... [more >>](#)

PSO stays strong in tough market

Source: [BR Research, Business Recorder, Islamabad](#), 2025-05-02

In 9MFY25, Pakistan State Oil (PSX: PSO) demonstrated resilience amid a challenging economic and industrial landscape. The company's earnings increased by 14 percent year-on-year increase, despite industry-wide volume declines due to cost management, a drop in finance costs, and improved liquidity. PSO's net sales dropped 13 percent year-on-year in 9MFY25 primarily driven by lower [more >>](#)

National gas network at risk as line pack pressure hits 5bcf again

Source: [Khalid Mustafa, The News, International](#), 2025-05-03

ISLAMABAD: The authorities of the Petroleum Division have alarmingly reduced the local gas intake by 264mmcf, putting the existing gas fields at risk of losing the required natural pressure when they are made functional again. The authorities have scaled down the local gas intake in the system to manage the gas line pack pressure which has surged again to 5.12 billion cubic feet (bcf) from 4.6 b..... [more >>](#)

Competitive electricity market

Source: [Editorial, The Express Tribune, Islamabad](#), 2025-05-03

The prime minister's plan to introduce a competitive electricity market may seem like a win-win at first glance, but even a cursory look at countries where such systems are already in place reveals that the answer is more nuanced. While a perfectly competitive electricity market would indeed be in the best interest of consumers, producers and distributors, the fact is that perfect competition..... [more >>](#)

Coal-fired plant in Gwadar planned; CPPCL cites 'snags' and 'challenges'

Source: [Mushtaq Ghumman, Business Recorder, Islamabad](#), 2025-05-03

ISLAMABAD: Chinese firm M/s CIHC Pak Power Company Limited (CPPCL), which plans to establish a 300 MW coal-fired power plant in Gwadar, has raised serious concerns over several critical challenges — including the approval of insufficient costs, exchange rate losses, and difficulties in converting foreign currency. In a letter addressed to Shah Jahan Mirza, Managing Director of the Priva..... [more >>](#)

ISLAMABAD: The Power Division has invited comments from stakeholders on the country's electricity market under the Competitive Trading Bilateral Contract Market (CTBCM) of National Electricity Plan (NEP) meant to commence with an initial allocation of 800-MW electricity for five years, subject to revision based on market response. In a communication to stakeholders, the Power Division c..... [more >>](#)

LNG import; Petroleum Div proposes reconstitution of body

Source: [Mushtaq Ghumman](#), [Business Recorder, Islamabad](#), 2025-05-05

ISLAMABAD: Petroleum Division has proposed reconstitution of Committee on import of Liquefied Natural Gas (LNG) after failing to evolve consensus amongst the stakeholders during the last seven years starting from 2018, well informed sources told Business Recorder. Last week, Petroleum Division informed the Council of Common Interests (CCI) that although the Committee constituted by the CCI h..... [more >>](#)

Grid must transform immediately

Source: [Editorial](#), [Business Recorder, Islamabad](#), 2025-05-05

One reform the Prime Minister is particularly optimistic about is the reduction in power prices. Yes, there has been some decline — though not as much as the government claims — in April's electricity bills. But the issue isn't just energy pricing, which has temporarily gone down; the real challenge lies in sustaining consumption on the national grid. The question is w..... [more >>](#)

CTBCM reform

Source: [Ramsha Panhwar](#), [Dawn, Islamabad](#), 2025-05-06

FOR decades, Pakistan's power sector has operated as a rigid, state-run monopoly — like a railway network where the state owns the trains and tracks and sets routes and fares. Under this centralised model, the Central Power Purchasing Authority (CPPA) acts as the sole buyer, procuring electricity from generation companies (Gencos) and independent power producers (IPPs) and channels it [more >>](#)

Source: [Junaid Zahid, The News, International](#), 2025-05-06

While Pakistan's metropolitan hubs are expanding rapidly and rural areas still get targeted development support, peri-urban areas – those transitional zones between city and countryside – are becoming increasingly vital but gruesomely underappreciated. Often referred to as the 'in-between', these areas today house millions of Pakistanis who live with the consequences..... [more >>](#)

The Rafale Debacle and Western Media's Partisan Narrative

Source: [Abid Rasheed, The Destination](#), 2025-05-09

War has never been confined to the battlefield alone. In our hyperconnected age, real conflict often plays out in the war of narratives, where perception battles reality and media outlets become weapons themselves. The recent escalation between Pakistan and India laid this truth bare once again, revealing not just military posturing but an alarming pattern of media manipulation. When Pakistan&rsqu..... Economy of conflict

Source: [Dr Abid Qaiyum Suleri, The News, International](#), 2025-05-11

Having ignored Pakistan's offer for a transparent joint investigation into the tragic incident in Pahalgam and without providing any evidence linking the country to it, India has once again imposed a war on Pakistan through its unilateral aggression and missile attacks on civilians. As tensions between Pakistan and India intensify, the ripples [more >>](#)

Water deficit and infrastructure investment

Source: [Ahad Nazir, The News, International](#), 2025-05-10

When New Delhi announced last week that it would "keep the Indus Waters Treaty in abeyance," anxiety spiked across Pakistan. Per capita water availability has already slipped below 1,100 m³ and could fall to 900 m³ by 2050, according to the World Bank diagnostic report titled Pakistan: Getting More from Water published in 2019. Sc..... [more >>](#)

The flawed economics of the IGCEP

Source: [Dr Khalid Waleed, The News, International](#), 2025-05-12

One of the ten commandments for electricity planning is 'Thou Shalt Not Expand Electricity Supply Without Industrial Demand'. New power plants become stranded, costly monuments to poor planning without industrial demand. The Indicative Generation Capacity Expansion Plan (IGCEP) has long been employed for Pakistan's power sector planning. Crafted through rigorous economic modelin..... [more >>](#)

Money Matters Why Pakistan must act before CBAM expands

Source: [Saad Ali Ahmed](#), [The News, International](#) , 2025-05-12

Carbon pricing systems are fast taking centre stage in trade policy as the world economy turns towards climate responsibility. The European Union's Carbon Border Adjustment Mechanism (CBAM), a legislative tool meant to level the cost of carbon between home EU businesses and overseas exporters, is leading this change. The CBAM is forcing a reckoning by pricing the carbon embedded in imported goods..... [more >>](#)

Ceasefire redraws strategic lines?

Source: [Dr Abid Qaiyum Suleri](#), [The News, International](#) , 2025-05-14

The May 10 ceasefire between India and Pakistan has brought considerable relief to millions across the border after days of unprecedented aerial strikes, drone warfare and cross-border shelling. Brokered with reluctant but decisive US intervention (supported by key regional and EU players), the truce is a diplomatic win for Islamabad – achieved through a perfect mix of military deterrence, [more >>](#)
