

Pakistan's Energy Transition

About SDPI

SDPI was founded in August 1992 on the recommendation of the Pakistan National Conservation Strategy (NCS), also called Pakistan's Agenda 21. The NCS placed Pakistan's socio-economic development within the context of a national environmental plan. This highly acclaimed document, approved by the Federal Cabinet in March 1992, outlined the need for an independent non-profit organization to serve as a source of expertise for policy analysis and development, policy intervention, and policy and program advisory services. SDPI is registered under the Societies Registration Act, XXI of 1860.

Mission

To catalyse the transition towards sustainable development, defined as the enhancement of peace, social justice and well-being, within and across generations.

Vision

To be a center of excellence on sustainable development policy research, capacity development and advocacy in Pakistan.

About Newsletter

To keep abreast of emerging issues at the national/international and local level, the SDPI brings out a Bi-Monthly E-Newsletter on
“Pakistan's Energy Transition”

It carries reference information's to the news items/comments/Op-Eds appearing in leading National/International daily newspapers.

Newspapers Covered:

• Dawn	• The News	• The Express Tribune
• The Nation	• Business Recorder	• Daily Times
• Pakistan Observer	• Pakistan Today	• Urdu Point
• China Daily		

Editor Note:

Clean energy transition is the only answer and solution to secure the sustainable future of Pakistan. There is a dire need to address the use of clean energy timely as it is not only the safest, reliable, and efficient means of energy production but will also harness the abundant indigenous energy resource available in Pakistan. Pakistan's recent policies and initiatives have strongly advocated the need for Pakistan to transition towards clean energy resources. With ARE policy aiming to achieve 30% power through hydro and 30% share of renewables in the energy mix, Electric Vehicles (EVs) policy targeting to achieve 30% share of EVs by 2030, Paris Agreement goals, and the recent moratorium of coal by Prime Minister in Climate Summit, Pakistan is taking a leap towards a green energy future.

However, the development of clean energy transition in Pakistan cannot be achieved without political leadership and need of research-based scientific evidence to help transform the conventional policy making process in Pakistan.

In this regard, Sustainable Development Policy Institute (SDPI) runs a "Clean Energy Transition Program", under which "Network for Clean Energy Transition in Pakistan: Research and Advocacy", along with the "Renewable Energy Parliamentary Caucus" have been launched and established to mobilise policies into implementation with clear goals and targets. Our work is focused on (but not limited to) building momentum by exploring the missing gaps and links for achieving Sustainable Development Goal 7 (SDG7) through a holistic approach, especially to explore ways for post-COVID green economic recovery; aligning the wider sustainability agenda with SDG7, sectoral policy reforms, renewable energy investment streams, green financing, private sector engagements, and other windows of opportunities for achieving the goal of clean energy transition in Pakistan.

Subjects Covered

- Energy and power
- Renewable energy
- Sustainability
- Energy investment, innovation, automation
- Oil and gas sector
- Transport
- Industry

Govt slashes LPG prices by Rs6.7 per kg for October

Source: [Israr Khan](#), [The News, International](#), 2025-10-01

ISLAMABAD: Consumers will get some relief in October as the federal government on Tuesday announced a Rs6.7 per kilogramme cut in liquefied petroleum gas (LPG) prices, a 3.13 per cent drop, following a steep decline in the Saudi Aramco contract price (CP). The price cut brings LPG down to Rs207.5 per kilogramme, the Oil and Gas Regulatory Authority (Ogra) said in a notification. The new rates tak..... [more >>](#)

KE urges adherence to safety protocol amid rains

Source: [Press Release, The Nation, Islamabad](#), 2025-10-01

KARACHI - K-Electric (KE) has urged citizens to prioritise safety and remain vigilant, particularly in areas where waterlogging becomes an issue, as moderate to heavy showers broke the spell of heat in the city on Tuesday. KE field teams remained on alert to monitor the situation and address any localised issues. The network remained stable and at the peak of the downpour, less than 175 of KE&rsqu..... [more >>](#)

Petrol price hiked by Rs4.07, HSD's by Rs4.04

Source: [Wasim Iqbal, Business Recorder, Islamabad](#), 2025-10-01

ISLAMABAD: The federal government announced late Tuesday that it is raising the prices of petrol and High-Speed Diesel (HSD), effective October 1, 2025. Petrol will see an increase of Rs 4.07 per litre, while HSD will go up by Rs 4.04 per litre. According to the Finance Division's late-night announcement, the price revision is based on recommendations from the Oil and Gas Regulator..... [more >>](#)

KE's Rs50bn write-off claims; Nepra unlikely to reverse its decision

Source: [Mushtaq Ghumman, Business Recorder, Islamabad](#), 2025-10-01

ISLAMABAD: The National Electric Power Regulatory Authority (Nepra) is unlikely to reverse its decision regarding K-Electric's (KE) Rs 50 billion write-off claims, as the Authority found no compelling arguments from the interveners — including the Power Division and Central Power Purchasing Agency- Guarantee (CPPA-G), which challenged Nepra's earlier decision. On Tuesday, th..... [more >>](#)

Incremental electricity package; APTMA submits recommendation to Leghari

ISLAMABAD: Ali Pervaiz Malik, the Federal Minister for Petroleum, and senior officials from the international and local energy sectors met here on Wednesday to discuss a plan for reviving oil and gas exploration activities in the Peshawar Block. The minister met with Pierce Onthank, Chief Executive Officer of Hycarbex-American Energy, and Faheem Haider, CEO of Mari Energies, at the Ministry o..... [more >>](#)

Despite floods, sales of petroleum products increase

Source: [Zafar Bhutta](#), [The Express Tribune, Islamabad](#), 2025-10-03

ISLAMABAD: Despite several challenges, including the recent floods, sales of petroleum products went up during September 2025. Sales of oil refineries surpassed production during the month while sales of oil marketing companies (OMCs) rose 8% year-on-year (YoY) and 5% month-on-month (MoM). Oil industry officials reveal that high-speed diesel (HSD) has been oversupplied due to imports, which pose..... [more >>](#)

Now you'll need biometric verification for new power connections in Islamabad

Source: [Web Desk](#), [The Express Tribune, Islamabad](#), 2025-10-03

Getting a new electricity connection in Islamabad just got a lot more personal as you'll now need to verify your identity through biometrics before the lights come on. The Islamabad Electric Supply Company has teamed up with NADRA Technologies Limited to roll out mandatory biometric verification for all new electricity connections and reconnections. The move, officials say, is aimed at ma..... [more >>](#)

KE does not receive 'operational subsidies': CFO

Source: [Mushtaq Ghumman](#), [Business Recorder, Islamabad](#), 2025-10-03

ISLAMABAD: K-Electric (KE), the country's only privatised power utility, asserted on Thursday that its electricity generation is cheaper than the power produced in other parts of the country if nuclear and hydropower generation obtained from the national grid are excluded. This was stated by KE's Chief Financial Officer (CFO), Aamir Ghaziani, during a hearing on a motion for leave..... [more >>](#)

Power liberalisation

Source: [Shakir Ali Soomro](#), [The News, International](#), 2025-10-04

Privatisation and liberalisation are considered key economic development activities for nations. The primary objective of these activities is to transform state-owned enterprises into private sector entities, with a focus on establishing a stable regulatory framework and promoting macroeconomic stability. Public communication and engagement, along with monitoring the political context, are also c..... [more >>](#)

LNG is no longer a key energy source for Pakistan, says minister

Source: [News Desk](#), [The News, International](#), 2025-10-04

Liquefied natural gas is no longer playing a key role in meeting Pakistan's energy needs, according to its petroleum minister, a stark shift for the South Asian nation once seen as a fast-growing buyer, reports Bloomberg. LNG shipments to Pakistan peaked in 2021 and have slumped since Russia's invasion of Ukraine led to a price surge. Deliveries are down 5.0 per cent so far this year,..... [more >>](#)

Circular debt: The Rs200 billion delusion

Source: [BR Research, Business Recorder, Islamabad](#), 2025-10-09

The government's reported pushback against the IMF's proposal to cap annual circular debt flow at Rs200 billion is less about fiscal realism and more about chronic denial. Every few quarters, the country relives the same debate — how much circular debt “can be tolerated” — as if the number itself were the disease. The real sickness is structural, and the policym..... Building tomorrow's classroom by using AI technology

Source: [Dr Kashif Salik and Yahya Gulraiz](#), [Business Recorder, Islamabad](#), 2025-10-01

Since the COVID-19 pandemic, the education sector has seen a gradual shift toward online learning, a trend that continues to this day. As the first quarter of 21st-century approaches its end, artificial intelligence (AI) is increasingly shaping and transforming the education landscape worldwide. However, its adoption still faces challenges in areas of related trainings and infrastructural needs. O..... [more >>](#)

The lost purpose of education

Source: [Dr Babar Shahbaz](#), [The News, International](#), 2025-10-05

What happens to a nation when its education loses direction? Martin Luther King Jr, in an essay published in 1947, offered an alarming warning that still echoes today: "If we are not careful, our colleges will produce a group of close-

minded, unscientific, illogical propagandists, consumed with immoral acts. Be careful, brethren! Be careful, teachers!" Almost eight decades later, the..... [more >>](#)

AI in the classroom

When growth fails the people

Source: [Dr Abid Qaiyum Suleri](#), [The News, International](#), 2025-10-10

The World Bank's latest report, 'Reclaiming Momentum Towards Prosperity: Pakistan's Poverty, Equity and Resilience Assessment', delivers a sobering message. After nearly two decades of progress, poverty is once again rising. The national poverty headcount has reached 25.3 per cent, up from 21.9 per cent in 2019, while under the World Bank's updated lower-middle-income..... [more >>](#)

Barricades can't build confidence

Source: [Dr Abid Qaiyum Suleri](#), [The News, International](#), 2025-10-14

Last week, Islamabad was once again turned into a fortress. Long walls of shipping containers and trailers, meant to carry trade goods to and from Pakistan's ports, blocked the main highways from Punjab and Khyber Pakhtunkhwa that lead to the capital. The entry and exit points of Islamabad were sealed off as well. Instead of facilitating commerce, containers were repurposed to contain prote..... [more >>](#)
