About SDPI

SDPI was founded in August 1992 on the recommendation of the Pakistan National Conservation Strategy (NCS), also called Pakistan’s Agenda 21. The NCS placed Pakistan’s socio-economic development within the context of a national environmental plan. This highly acclaimed document, approved by the Federal Cabinet in March 1992, outlined the need for an independent non-profit organization to serve as a source of expertise for policy analysis and development, policy intervention, and policy and program advisory services. SDPI is registered under the Societies Registration Act, XXI of 1860.

Mission

To catalyse the transition towards sustainable development, defined as the enhancement of peace, social justice and well-being, within and across generations.

Vision

To be a center of excellence on sustainable development policy research, capacity development and advocacy in Pakistan.

About Newsletter

To keep abreast of emerging issues at the national/international and local level, the SDPI brings out a Bi-Monthly E-Newsletter for “China Study Centre - SDPI”

Editor Note:

Launched in August 2018, China Study Centre is a broader initiative of Sustainable Development Policy Institute (SDPI) to bridge the research-policy gap on the issues of global relevance such as trade, technologies, climate change, tourism, business, finance and Pakistan-China relations. The Centre strives to foster research, knowledge and expertise on China, profoundly relevant to our engagement with China-Pakistan Economic Corridor (CPEC).

With a large network of universities, government bodies, business and civil society organizations, the Centre aims to promote collaborations, capacity building and technology transfer based on lessons learnt and experiences of China, attributed to their scientific knowledge and policy instruments. This requires a deep insight into Chinese history, culture, and socio-economic contexts. Such an approach is essential to catalyze the active engagement with China to address the economic and development challenges towards achieving sustainable development.
