3-Day Workshop on
Advanced Teaching Skills and Learning Methodologies
July 23 – 25, 2019 | Islamabad
Teaching is not only a profession but also a passion. It is an art of communicating and sharing ideas, knowledge and skills in a way that creates a lifelong impact on the physical and mental capacities and capabilities of individuals as well as communities across generations. Leadership in education does not transpire by chance whereas it comes with experience and continued learning. This leadership not only educate the protégé but also play a role in his/her intellectual grooming so as to shape up his/her life for a greater societal change.

SDPI, the number one think tank of Pakistan, is engaged in producing evidence-based knowledge. Its experts and researchers have exceptional teaching skills being practiced by the world’s leading educational institutions and organizations. So, join us to enhance your leadership skills in teaching.
