1. Why Vision 2025
2. Objective of Vision 2025
3. Outline of Vision 2025
4. Working Groups
5. Sub-Working Groups
6. National Consultation Conference of 1000+ Stakeholders
Why Vision 2025

• Vision 2025 will be about unlocking the immense potential within this country: It will primarily aim at:
  
  – Private sector as engine of growth
  – An efficient professional and accountable public sector
  – Corporate Governance based on OECD guidelines
  – Macroeconomic stability with inclusive growth
  – Political stability and peaceful Pakistan
OBJECTIVES OF VISION 2025

• To have good quality of life and high living standard compatible with emerging economies like Malaysia.

• To achieve an annual average growth rate of 7 to 8 percent by 2025.

• To bring about structural transformation of economy from low productivity to high productivity in all real sectors.

• To build institutions and social capital commensurate with requirements of high growth economy.

• To have energy, food and water security.

• To put private sector as driver of growth and ensuring enabling environment through better public management and good corporate governance.
The Vision 2025 is the country’s long–term development blueprint. It aspires to transform Pakistan into an industrialized and knowledge based high income country by 2025. To this end we have to ensure:

- Energy security
- Sustained and inclusive higher growth
- Private sector led growth
- Modernization of existing infrastructure
- Improving Competitiveness in Industry & Trade
- Internal resource mobilization through Tax Reforms.
- Ensure peace, security and tranquility in the country and the region
- Financial sector reforms
- Institutional and governance reforms
- Fully harnessing potential of Social capital
- Revival of Confidence
